Brian T. Pearson, as a party to Docket No. 2011-479-E, hereby petitions the Commission for a rehearing, pursuant to South Carolina Code Annotated Section 58-5-330 and all applicable regulations, as to Order No. 2012-630, issued on August 31, 2012, and transmitted to this petitioner by email dated September 4, 2012.

Brian T. Pearson petitions for rehearing on the referenced order on the following grounds:

1. The Commission has failed to calculate the rate at which Mill Creek Marina and Campground charged him for electricity and compare that rate to the rate charged Mill Creek Marina and Campground. Without the calculation and comparison, there is no basis for determining whether or not Mill Creek resold electricity;
2. The record does not support the finding that Mill Creek merely assessed residents, including Brian T. Pearson, a \$5.00 monthly meter reading fee; instead the record reflects, if appropriate calculations and comparisons are made, that Mill Creek charged Brian T. Pearson, and other residents, rates in excess of that charged Mill Creek by Tri-County Electric Cooperative;
3. Mill Creek owns meters, lines, and other equipment which facilitate transmission of electricity to intertidal tenants;

4. Mill Creek transmits electricity for compensation;
5. S.C. Code Annotated § 58-27-10(7) is not controlling due to Mill Creek's transmission of electricity for compensation and Mill Creek resells electricity;
6. That the Commission should order rather than allow Mill Creek to agree to stop charging a \$5.00 monthly meter reading fee.

This petition is based on the testimony and exhibits made a part of the record on November 23, 2011.
